Crisfield Flower Shop
Crisfield
private

Perhaps the oldest store building in Crisfield, this two-story, three-bay commercial structure is conveniently dated by an embossed year of construction in the upper portion of the parapet roof. Not only is the Victorian brickwork well preserved, but the first floor store front has not been significantly altered. The recessed double-door entrance is flanked by large plate glass display windows, and a mid-level bracketed cornice tops the store front.

Prepare both a summary paragraph and a general description of the resource and its various elements as it exists today.

Crisfield Flower Shop

The Crisfield Flower Shop stands on the south side of the 200 block of West Main Street in "uptown" Crisfield, Somerset County, Maryland. The two-story three-bay common bond brick commercial building faces north.

The two-story, three-bay common bond brick store building is distinguished by a relatively intact exterior with large display windows, a recessed entrance and a bracketed mid-level wooden cornice. Located above the mid-level cornice is a series of three two over two sash windows that light the second floor. The area above the second floor windows is marked by a row of recessed brick squares, while the parapet cornice consists of corbelled brick with alternating rows of diagonally set bricks. The center portion of the front parapet rises in a flat arch, and located within the space is the embossed date of "1887".

The side elevations are essentially alike with an uneven division into four bays marked by two over two sash windows. The decorative brick cornice continues around each side and suggests both sides have always been visible from the street. Three small brick stove stacks rise from the west side elevation.

Prepare both a summary paragraph of significance and a general statement of history and support.

SIGNIFICANCE

The Crisfield Flower Shop is one of the earliest and most significant commercial buildings standing in either the "downtown" or "uptown" business districts of Crisfield. Not only does it predate the disastrous 1928 Crisfield fire, but it survives with an intact storefront and rare Victorian decorative brickwork that frames the embossed date of construction. The first floor interior has not been altered significantly either.
